Comparison between 8th Period Dividend Forecasts and 7th Period Results

- By acquiring high-quality properties with fixed lease rates, help increase average NOI yield
- Repay loans with the use of part of funds obtained from capital increases and reduce interest expenses
- Although dividends will decrease due to the increase in number of investment units, we will strive to increase future dividends by making the expected dividend for the 8th Period of 6,550 yen the lower limit

					(Amount: mn yen)			
	Actual		Forecast

(Note 5) Interest expense with respect to repayments of loans are estimated values

(Note 6) LTV=Interest-bearing debt/Total assets

(Note 7) Number of units in the case that issuance of new investment units in relation to third-party allotment is fully executed (maximum)

(Note 8) BPS= Unitholders' capital/Number of investment units

1-2

Investment highlights Rationale behind Public Offerings

HILLS REIT

Current Situation of MHR	Real Estate Market	J-REIT Market
 Issues Gradually increasing finance expenses due to high LTV and difficulty in achieving external growth Decreasing NOI Increasing latent losses within the portfolio Desire to strengthen support from the sponsor Slumping investment unit prices while evaluation remains low Countermeasures and accompanying Demerits Wait for the market to recover (face gradually increasing finance expenses and uncertainty about the future) Sell properties we own (decrease of revenue and possibility of incurring loss on sale) Capital increases and property acquisition (lowering of BPS (Unitholders' capital/Number of investment units)) Lowering of dividend A need to overcome issues In view of the situation of MHR, the real estate implement capital	 Rental market Although vacancies continue to rise, adjustments are also underway and some parties have made observations that the market is bottoming out More tenants view rents as discountable Stronger feeling that NOI is bottoming out Trade market The rise in expected yields for central Tokyo has stopped Prices of high-quality properties is at its lowest An environment advantageous for property acquisitions e market and the J-REIT mark increase at this time 	 From last autumn, public offerings have resumed Property sales and acquisitions resumed Measures such as sale of properties to improve LTV, and mergers and acquisitions have been achieved Recovery trend of capital markets et, MHR decided to
MHR will implement public offerings to acquire high-qual by taking advantage of proactive support fro (Sponsor support, acquisition of premium pro	om sponsors and to improve its f	financial condition

Second half of 2009

•As a result of MHR's core strengthstability from premium properties, changes in rents and occupancy rates for properties owned by MHR have remained stable compared to the average market levels in surrounding areas

- (Source) The asset manager created the "Unit rent of offices in central five wards of Tokyo" based on Nikkei Business Publications' "Nikkei Real Estate Market Report," the "Occupancy rate of offices in central five wards of Tokyo" based on CB Richard Ellis K.K.'s "Office Market Report" and the "Unit rent of residential properties in Minato ward" and the "Occupancy rate of residential properties in Minato ward" based on Ken Real Estate Investment Advisors Ltd.'s "Ken Data Press."
- (Note 1) Offices in the "Nikkei Real Estate Market Report" refers to offices in the central five wards of Tokyo (Minato ward, Chiyoda ward, Chuo ward, Shinjuku ward and Shibuya ward) whose standard floor space is 100 tsubo or greater. Unit rent is the conclusion rent which includes common service fees. Data from January to June 2008 are deemed as the first half of 2008, while data from July to December 2009 are deemed as the second half of
- 2009. (Note 2) Offices in the "Office Market Report" refers to offices in the central five wards of
- Tokyo (Minato ward, Chiyoda ward, Chuo ward, Shinjuku ward and Shibuya ward). The average of data from March to June 2008 is deemed as the first half of 2008 while the average of data from September to December 2009 is deemed as the second half of 2009.
- (Note 3) Rental housing in the "Ken Data Press" refers to rental housing with monthly rent of JPY 300,000 or more or rental housing with 30 tsubo or more of exclusively owned area. Furthermore, unit rent is the conclusion rent which includes management fees. The average of data for the 1Q (January to March 2008) and 2Q of 2008 (April to June 2008) is deemed as the first half of 2008 and data for 3Q (July to September 2009) of 2009 is deemed as the second half of 2009.
- (Note 4) For MHR data, the average of data for the 4th fiscal period is deemed as the first half of 2008, while the average of data for the 7th fiscal period is deemed as the second half of 2009. Data indicates the actual average unit rent and occupancy rate during the respective period. "Unit rent" is the conclusion rent which includes common service fees and figures of less than 1 yen are rounded up. For "Occupancy rate" and "Rate of revision," the figures are rounded up to one decimal place.

3-3 Management highlights Changes in the rent per tsubo and occupancy rates of the REIT HILLS REIT

8th Period (Plan)

Vacancy rates are projected to bottom out during the second half of this year and rents are projected to recover from next year

Focus on defensive property management by placing focus on occupancy rates

(Note1) The definitions of the Office and Residential categories used in these materials differ from those used in discussions of operating rates on Mori Hills REIT Investment Corporation's website (http://www.mori-hills-reit.co.jp/eng/cms/operate.html). In these materials, Office and Residential figures are compiled using individual figures for all office and residential properties in which Mori Hills REIT Investment Corporation has invested. Figures on Mori Hills REIT Investment Corporation's website are defined as per Portfolio Overview (page 48)

(Note 2) The above rents and occupancy rates indicate the average rent and the average occupancy rate during relevant periods

3-4 Management highlights Tenant leasing overview (as of Mar. 26, 2010)

5-2 Investor relations Varied approaches to access diversified investor base

Strengthening of individual IR

←November 15, 2009 Participated in a retail investors' seminar hosted by a securities company

Implementation of 3rd General Meeting of Unitholders

MHR held its 3rd General Meeting of Unitholders on October 9, 2009

Over 80 unitholders attended the briefing session on management highlights held after the general meeting of unitholders

Website renewal

Sep 14, 2009 More user-friendly, Japanese website launched. First-major renewal since listing

Implementation of investor survey

Investor survey enclosed in the Asset Management Report for the 6th Period to collect the opinion of MHR unitholders for improved IR going forward

Object	7,580 unitholders of 6th period (as of Jul. 31, 2009)
Method	Questionnaire with postcard
No. of returns	854
Ratio of returns	11.3%

Investment environment 6-1 Rental office market

71%

78%

81%

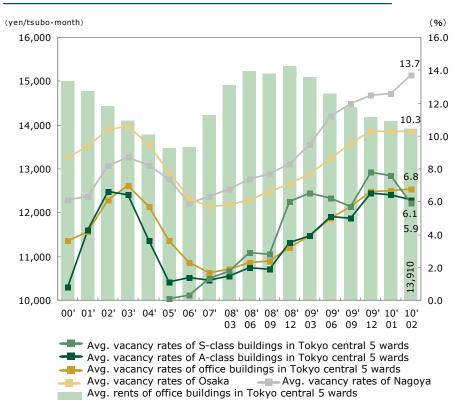

81%

69%

Central three

wards

Change in the rents and vacancy rates of rental office buildings

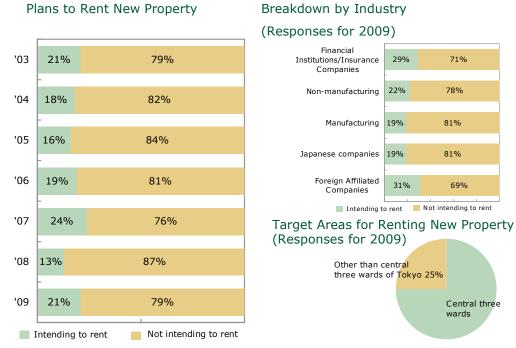

(Source) Created by the asset manager based on the "OFFICE MARKET REPORT" of CB Richard Ellis

- Offered rents do not include common service fee (Note 1)
- (Note 2) Annual rent covers rents from Jan-Dec, and Occupancy rate is as of end of Dec in each year

•Average vacancy rates of Class S and Class A buildings in the central five wards of Tokyo continue to decline ahead of others •Outlook for 2010 is that rents will continue to be adjusted

Office Needs Survey for the 23 Wards of Tokyo

(Source) Mori Building Co., Ltd.'s "2009 Office Needs Survey for the 23 Wards of Tokyo" released on March 2010 (Note) Survey period was from the middle of November 2009 to the middle of December 2009 and the main target of the survey (places where questionnaires were sent) was the top 10,000 companies in terms of capital whose headquarters are located in Tokyo's 23 wards. Furthermore, 1,917 companies returned the questionnaires (ratio of return of 19.2%)

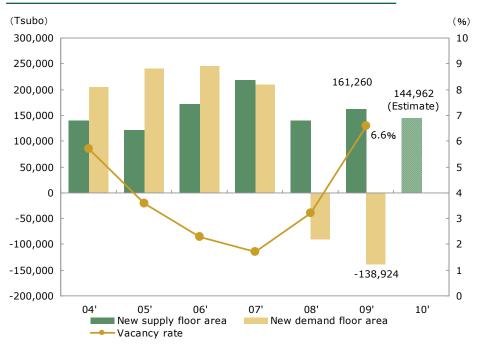

•Office demand is recovering centering on the central three wards of Tokyo
The percentage of companies who responded that they are planning to rent
new property recovered to 21% (13% in the 2008 survey)
75% of the companies who responded that they are planning to rent new
property are targeting the central three wards of Tokyo
•Office needs from foreign affiliated companies, financial institutions and
insurance companies are strong
The percentage of foreign affiliated companies who responded that they are
planning to rent new property rose to 31%
The percentage of financial institutions and insurance companies who
responded that they are planning to rent new property rose to 29%
Based on ``2009 Office Needs Survey for the 23 Wards of Tokyo

Investment environment

6-2 Office Demand and Supply Balance, and Real Estate Transactions, Lending Attitude DI, and Investors' Expected Returns

Changes in Office Demand and Supply Balance in Major 5 Wards of Tokyo

(Source) CB Richard Ellis Research Institute's "Japan Office MarketView: The Outlook of the Office Market in 2010" released on February 2010

- (Note 1) "Major Five Wards of Tokyo" refers to Chiyoda ward, Chuo ward, Minato ward, Shinjuku ward and Shibuya wards (Note 2) "New supply floor area" is the sum of total rentable floor area in rental office buildings that were completed
- between January and December of the respective year. (Note 3) For "New demand floor area," first the floor area (which is total rentable floor area multiplied by the occupancy
- rate of the respective year) is calculated. That floor area's difference from the previous year is then shown as new demand floor area.
- (Note 4) "Vacancy rate" is as of December of the respective year.
- Demand for Class A buildings is growing more than in 2008, partly because rents were further adjusted during the second half of 2009 with the shift to tenant relocations
- As demand for high-quality buildings such as Class A buildings recovers, a full-fledged recovery of demand is thought to be approaching, raising expectations for a further flow of demand
- New supply of floor area in 2010 is projected to be lower than 2009 Based on "Japan Office MarketView: The Outlook of the Office Market in 2010"

Real Estate Transactions, Lending Attitude DI, and Investors' Expected Returns

Investors' expected return for Class A buildings in Marunouchi

(Source) The asset manager created the "Real estate transactions (amount)" based on Urban Research Institute's
 "Actual Condition Survey on Real Estate Transactions," the "Lending attitude DI for the real estate industry"
 based on Bank of Japan's "TANKAN" and the "Investors' expected return for Class A buildings in
 Marunouchi" based on Japan Real Estate Institute's "The Japanese Real Estate Investor Survey."
 (Note) "Class A buildings" in "The Japanese Real Estate Investor Survey."
 (Note) "Class of buildings" in "The Japanese Real Estate Investor Survey" refers to buildings that are less than 5
 years of age, more than 50,000m 20 fotal floor area and other conditions.

• After peaking out at the second half of 2007, real estate transactions (amount) have continued to decline. However, some indicators are suggesting a period of recovery.

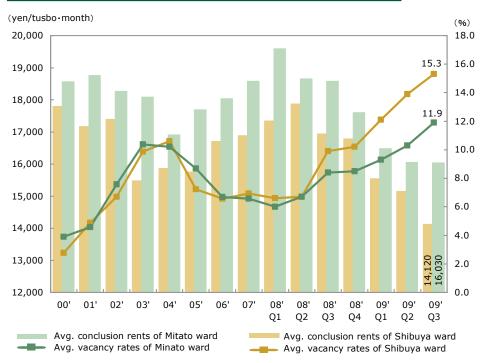

Financial institutions' "Lending attitude DI for the real estate industry"

- bottomed out on June 2009 and has since recovered
- "Investors' expected return for Class A buildings in Marunouchi" is unchanged from before
- The real estate transaction market is now in the middle of a transition toward a phase where buyers must be aware of an increase in competitors

6-3 Investment environment Luxury residential market

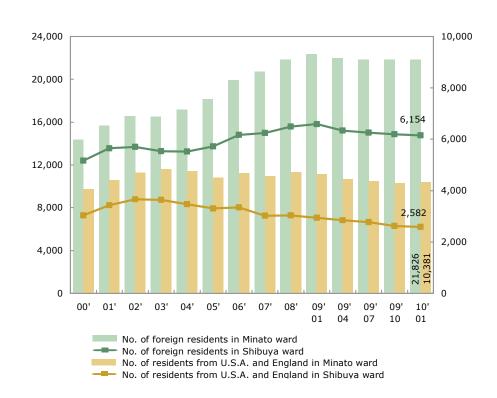

Change in the rents and vacancy rates of high-rent housing

(Source) Created by the asset manager based on Ken Real Estate Investment Advisors' "Ken Data Press" (Note 1) Includes data on rental housing with monthly rent of more than JPY300,000 or housing with more than 30 tsubo exclusively owned area (Note 2) Annual rent covers rents from Jan. Dec, and occupancy rate is annual average

• The overall luxury residential market still shows no signs of improvement with the increase of vacancy rates and decrease of unit rents. However, occupancy rates of MHR's residential properties improved for 6 consecutive months during the 7th fiscal period, suggesting that it has bottomed out.

Change in number foreign residents

(Source) Created by asset manager based on the material prepared by Tokyo Municipal Government (Note) Figures indicate the number of registered foreigners as of Jan 1 in each year

• Compared to when the vacancy rates rose around 2003, the population of foreign residents in Minato ward remains stable.

7-1 Operational Policy 1

Investment Strategy and Positioning of MHR's Portfolio based on the Basic Philosophy, "Investment in the City"

Investment with a "Focus on premium properties" and a "Focus on multi-functional"

Through maximum use of the overall strengths of the Mori Building Group, which has realized many large-scale redevelopments one after another in central Tokyo, MHR seeks to enhance the profitability and asset value of assets under management.

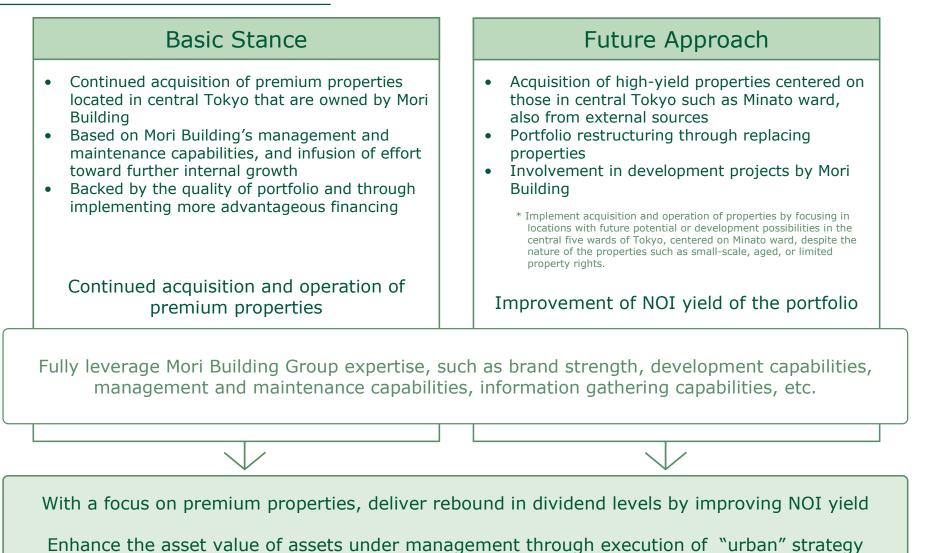

<investment city="" in="" the=""></investment>		Focus on premium properties			
	Areas where	Large-scale redevelopments	Roppongi Hills	Roppongi Hills Mori Tower Roppongi Hills Gate Tower	
			ARK Hills	ARK Mori Building	
Focus on multi-functional (Synergy effect and virtuous	the overall strengths of the Mori Building Group		Roppongi First	Roppongi First Building Roppongi First Plaza ARK Forest Terrace (Note)	Roppongi View Tower
cycle of various	can be expected,				<u>+</u>
urban functions)	centered on Minato ward of Tokyo	Other redevelopments	Moto-Azabu Hills	Forest Tower Forest Terrace East Forest Terrace West	
		redevelopments		Akasaka Tameike Tower	
		Developments of surrounding area			Toranomon 35 Mori Building
Other Tokyo metropolitan area			Koraku Mori Building		

(Note) Site, facility management and maintenance and rights of ARK Forest Terrace are separate from that of Roppongi First Building, etc. However, due to the establishment of sidewalks beside roads and greenery, these buildings environmentally and in terms of scenery form a unified space. Therefore, in the above figure, ARK Forest Terrace has been positioned as part of "Roppongi First."

7-2 Operational Policy 2

Basic Stance and Future Approach

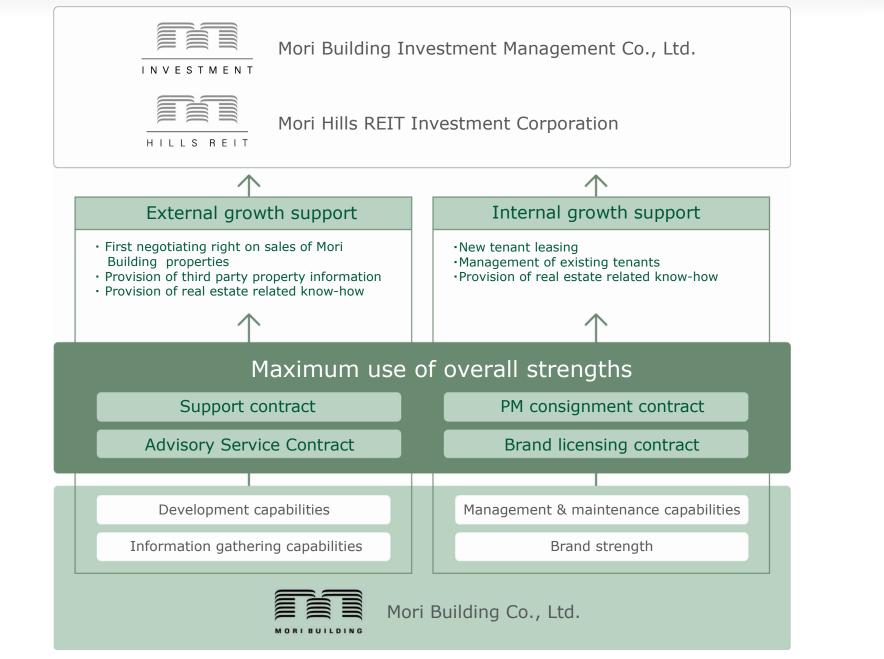

Appendix

HILLS REIT

(Note 3) Properties "C" through "G" that are located in redevelopment areas have not yet been completed as of the date this document was created

28

8-4 Mori Building Group's urban development in Akasaka/Roppongi area

Start of construction for the category 1 urban redevelopment project in Toranomon and Roppongi area

~The whole block including Roppongi First Ark Forest Terrace is scheduled to become a new base in Roppongi/Akasaka area ~

The Rights Conversion Plan was approved in Feb 2009, and preparations for starting construction work are currently ongoing. We expect that the value of our portfolio properties will increase further by becoming an integral part of the new "green city center residential area"

8-5 Mori Building Group's urban development in Toranomon area

HILLS REIT

Appointed as a distinct developer for Toranomon District Redevelopment Project

Contribution to improved traffic and logistics functions by providing a main route connecting the Bay Area and central Tokyo

Mori Building was appointed as a "prospective distinct developer" in the auction for selecting "distinct developer" for Block 3 (Toranomon Area) of the Loop Line #2 Shinbashi/Toranomon Class 2 Redevelopment Project by Tokyo Municipal Government. Once realized, the project will further increase the value of MHR properties located in the Toranomon area

High rise building (Note2)

Main entrance (image) Note2)

Key points of the Project

The ultra high-rise building which is to be Japan's second highest building, will have a hotel, offices, conference halls, and a retail facility.

Based on the "multilevel motorway plan", Loop Line #2 will pass through the building. Mori Building as a prospective distinct developer will also construct the underground tunnel based on consignment by Tokyo Construction Bureau.

Concept of the Project

Environment-friendly

At the crossing of the "East–West environment axis" formed by the trees of the ground part of Loop Line #2 and the "North–South environment axis" connecting Shiba Park, Atagoyama and Hibiya Park, Mori Building will develop an environment with lush greenery, open space and beautiful landscaping which is not only environment-friendly but also provides a place to rest in a natural environment by implementing diversified measures for reducing CO₂ emission

■International Business center "Compound facility"

Creation of an urban space that enables diversified urban activities by providing the multiple functions required by a knowledge-based and information-based society

■Safety & Security -Transformation from "run away from" to "escape into" town

Mori Building is aiming to develop a safe town where safety is not limited to the area to be developed but also helps prevent disaster in the surrounding areas

	Site area	17,069m ²
	Gross floor area	252,993m
	Number of floors	(Complex wing) 53 floors above the ground and 5 underground floors
	Height	247m
	Uses	Office, commercial, residential, hotel, conference and parking
	Client	Tokyo Metropolitan Government (Mori Building was appointed as a "prospective distinct developer")
	Commencement of construction	November 2010 (planned)
	Completion of construction	May 2014 (planned)

Redeveloped Loop Line #2 (Illustrated)

(Note1) "Distinct developers" are a method for utilizing private sector companies as defined under the "Urban Development Law". After Mori Building's appointment to distinct developer, they will develop the plan and undertake the construction of the "Specified building facility" based on our business plan and acquire remaining floor area portions of the facility. (Note2) Illustrations are those included in the proposal material created by Mori Building

8-6 Town management of the Mori Building Group

City creation by Mori Building Group

The Mori Building Group coordinates branding and promotional activities of the city as a whole in addition to the general operation and management of facilities.

"Roppongi Hills Arena"

Roppongi Hills Arena is an urban-style outdoor entertainment space. This partially roofed open space can host diverse events including live concerts on the circular stage and other performances that use the entire plaza. In the summer, the "Roppongi Hills Bon Festival Dance" is held as an annual event.

"Keyaki-zaka Complex Rooftop Garden"

At the rice fields of Keyaki-zaka Complex Rooftop Garden, events are held regularly to provide the experience of traditional Japanese rice culture. This garden is generally not open to the public, but is specially provided for use as a community location for Roppongi Hills.

Town management at "Ark Hills" owned by MHR

"Suntory Hall"

Suntory Hall contributes to creating a city with leisure of space and time, where people can enjoy, cultivate and communicate culture in a fascinating atmosphere.

"Cherry Blossom Festival"

150 Someiyoshino cherry blossom trees line three sides of the premise (Sakura-zaka to Spanish slope) stretching as far as 700 meters to decorate the metropolis in the spring.

"Rose Festival"

At the Rose festival, many different events relating to roses are held, including the "Rose Market" which gathers 200 kinds of roses, workshops that teach enthusiasts how to grow roses, and live string instrument concerts.

Hills Marche

Mori Building was selected to be an operator of impromptu farm stands called "Marche (food market)" which is part of the "Marche Japon Project" initiated by the Ministry of Agriculture, Forestry and Fisheries of Japan with services launched on Sep 26, 2009.

8-7 Environmental undertakings of the Mori Building Group

Highly valued environmental undertakings

Based on the concept "Vertical Garden City", the Mori Building Group advocates "Environment and Greenery" as one of the missions in city creation and has committed to the formation of a green environment, which contributes to alleviating the environmental challenges of the metropolis.

"Ark Hills" ~Lush natural environment nurtured in the city~

"Ark Hills" --- the Vertical Garden City

A mature lush environment is formed by continuous maintenance and management efforts. At the "Ark Garden", environmental approaches are taken to create a place for wild birds, such as introducing fruit trees and placing birdhouses

Cherry blossom trees lining Ark Hills

A line of 150 Someiyoshino cherry blossom trees stretches 700 meters around Ark Hills, creating a site known for its blooming beauty that attracts about 100,000 visitors every year

Cool Earth Day 2009 CO₂ Reduction/Light-down Campaign

This year again, MHR has participated in the "CO2 reduction/Light-down Campaign" aimed to prevent global warming.

MHR has participated in the nationwide lights out campaign on June 21, 2009 called "Black Illumination 2009", and on Jul 7, 2009 called "Tanabata Star Festival Light-down", putting lights out for 2 hours from 8pm to 10pm at facilities that are usually lit up and at individual residences

Alleviating the heat island phenomenon with "Dry Mist"

"Dry Mist", an energy-saving cooling system for cooling outdoor air, is operated at Roppongi Hills to improve the comfort of visitors and promote energy conservation

Residents' community "Hills Gardening Club"

"Hills Gardening Club" contributes to the vitalization of the area though events using greenery and provides a place for the local community to touch and enjoy green life

Participating properties

Roppongi Hills Mori Tower ARK Mori Building Ropponngi Hills Gate Tower Roppongi First Building Koraku Mori Building Moto-Azabu Hills ARK Forest Terrace

8-8 Addressing safety - a town to flee into (Countermeasures against earthquake disaster)

Comprehensive earthquake disaster drill (at Roppongi Hills on September 1, 2009)

Preparatory training for earthquakes focus on the safety of tenants and occupants of the properties managed by the Mori Building Group including Mori Hills Reit, and the local residents as well as on the early recovery of building functions after a disaster.

Smoke drill

Experiencing the quake

First aid in emergency

Training items

Operation of Cardia emergency wells First aid Rope Emergency transportation Smoke drill Exper quake

Cardiopulmonary resuscitation using AED Rope training Preparation of meals outdoors Experiencing the quake

Other countermeasures against earthquakes

Water well

Storage warehouse

Power generator for emergency purposes

Hills Urban Training Project: MHR hosted a tour for exploration of Roppongi Hills' safety measures for "Parent's and children's training to prepare for disaster"

They arranged a tour for children to experience and learn about disaster prevention as our missions for urban development includes "safety and security". We have hosted a learning-through-experiencing event for elementary school children to provide an opportunity for learning how to be prepared for an earthquake and to consider required measures where Roppongi Hills is positioned as their "Refugee Town"

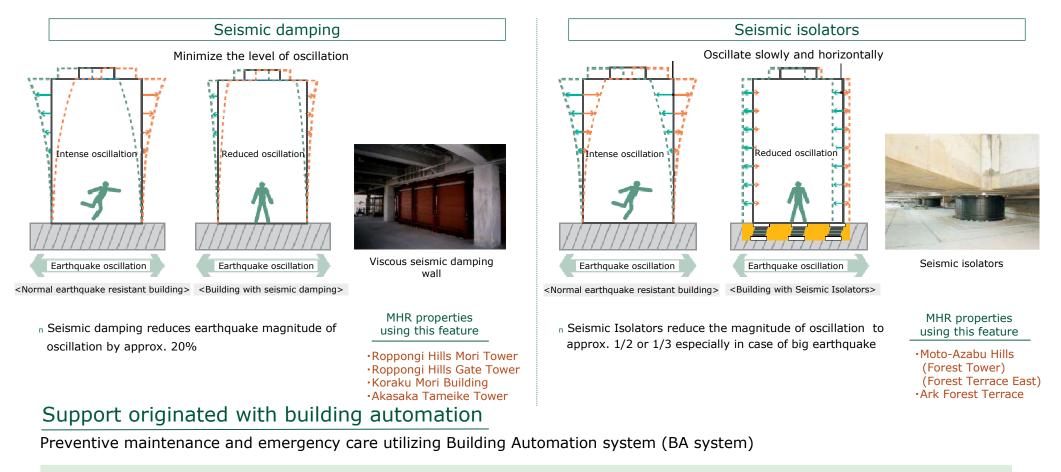

8-9 Addressing safety (Countermeasures against earthquake disaster)

Earthquake-resistant features

Control of BA system

Central supervisory control system
 Emergency broadcasting system
 ELV

Distributed electricity supervisory system
 Mechanical parking
 TTV

Engine/Lighting control system
 Automated control
 Security equipment
 Disaster prevention equipment

(Note 1) Out of the amount of taxes imposed on portfolio properties including Property & City Planning Tax and Depreciable Property Tax, the amount of taxes paid in the 6th and 7th period were included as expenses. Under this accounting treatment, taxes for 6 months were included as expenses in each respective period

(However, since an additional portion of ARK Mori Building (pass-through) and Akasaka Tameike Tower were acquired during the 5th Period, 3 months worth of taxes were included as expenses for the 6th Period for these two)

(Note 2) Other property expenses include sum of rental expenses, trust fees and other leasing expenses (residential property management fee and general leasing expenses)

8-15 7th period results breakdown by property 2

(Note 1) "Appraisal values" as of end of each period are based on the REIT's calculation rules, asset valuation methods & standards defined by the Business Regulation (Kiyaku), rules defined by the Investment Trust Association (Toshin Kyokai), and the property appraisal reports created by Japan Real Estate Institute (Fudoken)

(Note 2) Koraku Mori Bldg's Acquisition price and Book value are based on the appraisal value stated in the research report multiplied by the REIT's portion of Joint ownership in the quasi-undivided interests of the Trust beneficiary interests (80%)

(Note 3) During the 4th Period, we have acquired 75% of the Joint ownership in the quasi-undivided interests of the Trust beneficiary interests, and in the 5th period, the remaining 25%

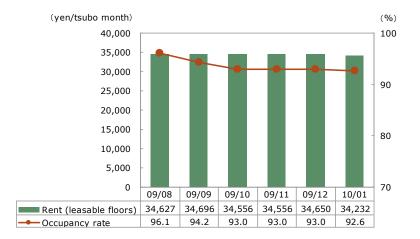

(Note 4) Sale of some dwelling units during the 5th period (Appraisal value of the block: JPN400mn) was key factor for the decline in value compared to the 4th period

8-17 Tenant status during the 6th period

8-21 Investment criteria

Focus on Premium Properties

MHR seeks to maintain the exceptional level of quality of its portfolio while aggressively expanding. To that end, MHR has established a high standard for "Premium Properties" which are to comprise at least 50% of the portfolio.

Premium Properties = Located mainly in central five wards in Tokyo (especially Minato-ku) + Large scale + High-grade specifications

Focus on		Location	Scale			
Premium Properties	Office building	Central five wards	Gross floor area of 10,000m or more per-building			
Premium		in Tokyo and their vicinity	Standard rentable floor area of 1,000m or more			
properties 50% more	Residential	Central five wards in Tokyo and their vicinity (Primarity in the "three-A" area)	Gross floor area of 2,000㎡ or more			
		$\langle \text{Department stores, downtown shopping centers,} large specialty stores & retail complexes \rangle$				
〈Office buildings〉 〈Residential〉 〈Retail〉	Retail	Flourishing areas of central five wards in Tokyo and their vicinity	Gross floor area of 10,000n or more per-building			
Non Dremium	Recuir	\langle Street front luxury brand shops, etc. $ angle$				
Non-Premium Properties 50% or less 〈Office building/Residential〉		Exclusive, well-known retail destinations	Gross floor area of 1,000m or more per-building			

* "Tokyo central five wards" include: Minato-ku, Chiyoda-ku, Chuo-ku, Shinjuku-ku and Shibuya-ku

* "Three-A" areas include: Akasaka/Roppongi area, Aoyama/Harajuku area, and Azabu/Hiroo area

* Ratios are based on the acquisition price.

Central five wards in Tokyo and their vicinity 50% more

Tokyo Area (Tokyo/Kanagawa/Chiba/Saitama) 80% or more Other major cities (Major cities in areas other than Tokyo area) 20% or less

Earthquake-resistance

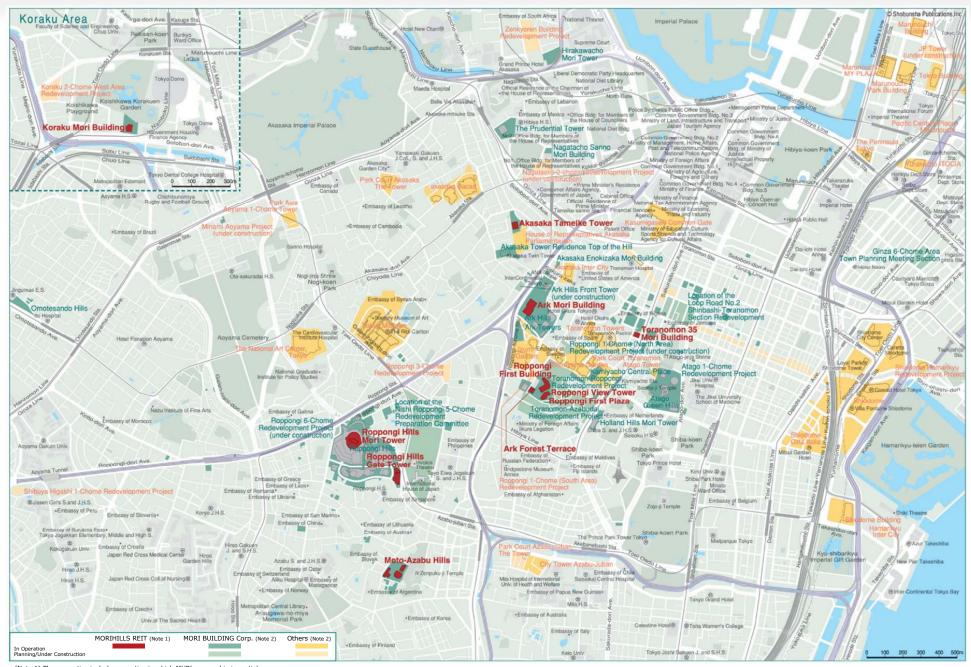

Investment focused on properties' earthquake resistance, the safety of the area, disaster countermeasures, etc.

Office building focus Office building 50% or Residential and retail 50% or less Tokyo central five wards focus

8-22 Portfolio Map

HILLS REIT

(Note 1) The properties include properties in which MHR's ownership is partial. (Note 2) As of the date this document is issued, we have no plans to acquire these properties. The same applies hereafter.
